Rate Changes/New Prices

At Cox Communications we thank you for the privilege of providing you with cutting edge products and services. Unfortunately, the cost of doing business (increasing programming costs, fuel costs and other business related expenses) continues to increase. As a company whose employees live and work in this community, we have pledged to keep our rates as low as possible while offering a wide range of programming options. Effective with your next billing cycle, you will see both increases and decreases in some prices. Although we always struggle with raising rates, today's prices reflect the increasing value of cable programming and features and are directly related to our cost of doing business.

You have the right to file a complaint with your Franchise Authority about changes in the price of Cox Limited Basic Service within 90 days of receiving the first bill reflecting these changes.
